with 2 Superbadges
• Basketball & Drawing Champion in
Inter-College

OBJECTIVE STATEMENT

Salesforce Developer with over 2 years of hands-on expertise in designing, developing, and implementing customized solutions on the Salesforce platform. Adept at translating business requirements into scalable and efficient technical solutions, with a strong focus on delivering value to clients. Proven track record of collaborating with cross-functional teams and optimizing Salesforce environments for enhanced productivity and user experience.

EXPERIENCE

MAXSYS TECHNOLOGY | Salesforce Developer
Apr 2022 - Present | Remote
Information Technology Support Services.

- Achieved 95% on-time user story deliveries by efficiently coordinating with an offshore team in an agile-based Scrum model.
- Customized objects, profiles, sharing rules, and roles to enhance Salesforce functionality and scalability in line with specific business requirements.
- Created custom Salesforce applications, including Apex classes, triggers, Lightning Web Components, and Visualforce pages to meet specific business needs and increased overall operational efficiency by 25%.
- Integrated web services, reducing manual data entry by 40%.
- Developed Platform Events to facilitate data publishing and subscription through flows, designed and deployed LMS & LDS solutions meeting 100% of the project requirements.
- Scheduled meetings with customer ops managers, resolving issues and driving a 20% satisfaction increase. Provided technical design documentation for business needs.
- Ensured efficient project management by maintaining and updating a deployment sheet, enabling seamless tracking of project progress and deployments.

MAXSYS TECHNOLOGY | Salesforce Developer Intern
Nov 2021 – Mar 2022 | Chennai, Hybrid

- Developed custom objects, fields, and page layouts to customize the Salesforce environment to meet customer needs.
- Implemented Salesforce security measures such as profiles, permission sets, along with field-level security, significantly enhancing data protection and security compliance.
- Created and maintained automation processes using Workflow Rules, Process Builder, and Flow to streamline business processes.
- Worked on data migration projects, including data cleansing and validation.
- Designed a custom Salesforce application that streamlined the sales process, reducing sales cycle times by 30%, and enhancing overall efficiency by 20%.

PROJECTS

LEAVE TRACKER APP
2022
https://github.com/aimran4801/Leave-Tracker-App

- Utilized Lightning Web Components(LWC) for a modern and user-friendly interface.
- Employed Apex and triggers for server-side logic and automation.
- Streamlined leave request management and approval processes.
